

अपने माता-पिता से भी यही क्रिया दौरा हुये ।

- This project is about the future. It is about how we imagine what we would be like 10 years from now.
- As Indians, what would we be like?
- Would we become a part of the global homogeneous culture? Or would we be different?
- How would we be unique?
- Through this project we are going to forecast a future for ourselves by talking about issues that are important to us and sharing our ideas with the rest of the community.
- And of course we are going to have a bit of fun along the way!
