

DIFFUSION

Construction

1 First, fold each A4 sheet in half along the vertical axis.

2 Using a craft knife or scalpel, cut a horizontal slot along the centre dotted line of the first A4 sheet. (pages 1/2/13/14)

3 Then cut along the dotted lines on all the other sheets. Make sure to cut to the very edges of the paper.

4 Stack the folded sheets in ascending order with the even numbers at the top. Curl the bottom half of the second A4 page (pages 3/4/23/24).

5 Thread the curled page through the centre slot of the first A4 page. Repeat this process with the third (pages 5/6/21/22), fourth (pages 7/8/19/20), fifth (pages 9/10/17/18), and sixth A4 sheet (pages 11/12/15/16) with the even pages in ascending order.

6 When all the pages have been threaded through, check the pagination. Finally, fold the booklets in half along the horizontal axis.
