

Risks - Social Control

Will monitoring technologies lead to ever greater surveillance, restrictions on mobility and other forms of social control?

of course.

VERY LITTLE WILL ESCAPE
AN ALL-POWERFUL OVERVIEW,
PERHAPS WITH HARD WILD
OSCILLATIONS BETWEEN POLITICAL
EXTREMES - PURE LIBERTY, TOTAL
FASCISM, and on; will one
BE ABLE to DELETE THE OTHER'S
DATA?
DON'T WE WANT TO KNOW EVERYTHING?

EVERYWHERE LOCALY.
FOLLOW THE SUN
Errors Evidently from the
SUGGESTION PHYSICAL
ROOM to SURVEILLANCE
of WORK.

Interventions - Energy
How can we power life on earth?

geeKyoto eNotebook: your ideas on intervention and risk

geeKyoto 2008

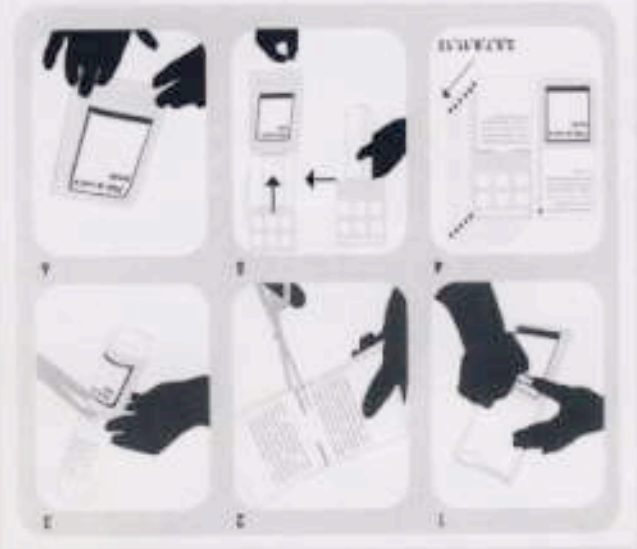

This eNotebook is a space for you to share your thoughts and ideas, observations and hopes, fears and aspirations for the future of the planet. The compass below suggests four different areas of intervention and risk. Use this eNotebook to write, doodle, scribble or draw your ideas on:

- **Interventions** you think can or should be made in the four areas (food, energy, economics and health) or others you think are missing;
- **Risks** from such interventions e.g.: social control, displaced consumption, Pyrrhic Victories and resource conflict.

These ebooks will be collected up, scanned and made into a publicly accessible digital library to inform and help shape future geeKyoto events.

Living In The Changed World

geekyoto eBook: your ideas on interventi

Your Name Alex Haw

Here are the key themes as we see them now, sometimes they are in opposition, other times not. What's missing from this matrix? Does each area deserve the same degree of attention and effort? Mark off how much you think each area should receive.

What if every person
 benefit from anything
 was offset by the state
 of everything else - then
 just by 1000%?
 What if every person
 sweet capitalist lawyer
 PS. is conflict good?

Are we facing new conflicts not only over
 resources (water, oil, raw materials etc) but also
 over the right to benefit from development?

Risks - Conflict

Would you work less?
 For all of us. You don't want them.
 One person's gain is another's loss.
 But want directly into
 you want was not shared
 what if all the money
 self +
 less concern for
 profit.

What is the bottom line for life on earth?

Interventions - Economics

Risks - Pyrrhic Victories

Are we just inventing more polluting technologies to save us from the effects of industrialisation and the consumer society?

IF THE MOTIVE FOR SAVING THE PLANET IS

PROFIT + SELF-INTEREST,

WE'RE STILL

FUCKED - EVEN IF

WE WANT BETTER THINGS

DO WE FEEL IT'LL BE "PYRRHIC"

IF WE SACRIFICE TOO MUCH -
OR ANYTHING?

10 6

but with more effort & will

anyway

of course, eat, take in system + sun, etc: we need to

we need to invest: to

NO.

NIS 50% of this more important is hidden, useless, waste

Are we just shifting the sites of production and consumption to somewhere else?

Risks - Displaced Consumption

Interventions - Health

How can we improve the health of life on earth?

WORRY LESS.

SIT LESS.

How much illness is SELF-INDUCED?

How prone are we to SELF-DESTRUCTION?

HAVE LESS CHILDREN?...

5 9

for a while?

think the earth

with it we didn't

then without - sorry..

stop sticking things into it

stop trying to fuck it -

How can we nourish life on earth?

Interventions - Food
