A moderate, strategic growth in undergraduate studies will ensure top students continue our tradition of undergraduate excellence.

State-of-the-art building to attract top quality students and faculty and support the revitalization of the area.
Planning is a wide-ranging field that touches each of our lives on a daily basis. Planning incorporates areas such as economics, design, ecology, sociology, geography, law, political science, and statistics to guide and ensure the orderly development of our communities.

At the core of our plan is a commitment to students and faculty and support the revitalization of the area. The Internet is to create a state-of-the-art building to attract top quality students and faculty and support the revitalization of the area. The Internet is to create a state-of-the-art building to attract top quality students and faculty and support the revitalization of the area.

Phase 1 includes an office tower right at the corner of King and Victoria Streets, and an attached four-story L-shaped structure for classrooms, a library/resource center, a food outlet and teaching and research labs... Sustainable building design will be incorporated where possible. The intent is to create a state-of-the-art building to attract top quality students and faculty and support the revitalization of the area.
The talk began at 9:45 and covered topics ranging from entrepreneurship and philanthropy. He spoke for a half hour, then took questions from the audience.
