

.....

One of the sights of London for hundreds of years was the Tower menagerie. Its genesis has been usually thought to have been the gift to the king in 1235 of three leopards from the emperor Frederick II. However, recent research suggests that King John brought exotic animals to London in 1204 and possibly housed them in the tower.  DIFFUSION eBooks are designed to be freely
 available to download, print out and share.

Being a collection of images compiled by the artist
 with his daughter while wandering about London
 and its environs in search of beasts on the dates
 of November 25th and 26th, 2007. The reader
 should note that this is by no means a complete
 archive of the creatures observed.
