

Will monitoring technologies lead to ever greater surveillance, restrictions on mobility and other forms of social control?

How can we power life on earth?

Interventions - Energy

geeKyoto eNotebook: your ideas on intervention and risk

geeKyoto 2008

DIFFUSION GENERATOR

2

These eBooks will be collected up, scanned and made into a publicly accessible digital library to inform and help shape future geeKyoto events.

- **Risks** from such interventions e.g.: social control, displaced consumption, 'Pyrrhic Victories' and resource conflict.

• **Interventions** you think can or should be made in the four areas (food, energy, economics and health) or others you think are missing;

The compass below suggests four different areas of intervention and risk. Use this eNotebook to write, doodle, scribble or draw your ideas on:

This eNotebook is a space for you to share your thoughts and ideas, observations and hopes, fears and aspirations for the future of the planet.

Saturday 17th May 2008, Conway Hall, London.

Living In The Changed World

geekyoto 2008

Risks - Conflict
 Are we facing new conflicts not only over
 resources (water, oil, raw materials etc) but also
 over the right to benefit from development?

Your
 Name.....

Here are the key themes as we see them now,
 sometimes they are in opposition, other times
 not. What's missing from this matrix? Does each
 area deserve the same degree of attention and
 effort? Mark off how much you think each area
 should receive.

Interventions - Economics
 What is the bottom line for life on earth?

Risks - Pyrrhic Victories

Are we just inventing more polluting technologies to save us from the effects of industrialisation and the consumer society?

10 6

Are we just shifting the sites of production and consumption to somewhere else?

Risks - Displaced Consumption

Interventions - Health

How can we improve the health of life on earth?

How can we nourish life on earth?

Interventions - Food
