

Maybe use more low tech alternatives for things that get too technical.

Why do it?

I want to lower the barrier for creativity & make it fun/accessible/easy for all to exercise their creative muscles. Creativity is not valued as much as it should be.

Also I'd like to show the connectivity of the world / people by linking what people create to tangible things eg, number of colour pixels, data visualisations, people drawing on the same space etc.
 → Gets more people involved, as

Lattice Sketchbook

Tak Tran (Popperbox)

DIFFUSION

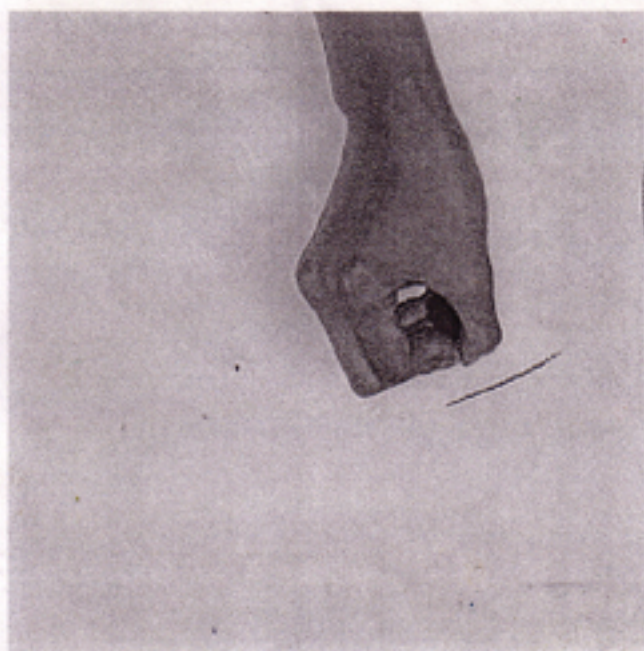

|Digi-doodle wall|

How to stimulate interest?
Get people off their feet & joining in.

How to make it seem fun?

What are intuitive ways to visualise data?

Questions

Use this book to sketch out your ideas, directions and other thoughts inspired by the workshop.

Words from days 1 and 2

landmarks, space, making your mark, negotiating space, two way, voices, question, obstacles, choice, places, direct impact, identities, curiosity, play, invention, joy, fun, language, communication, accessibility, we just keep moving, sustainability, interactive, reflection, movement, artist, documentation, education, listening, change, sharing, movement, pavement, street, people on streets, media, recycling, environment, creativity, belonging, materials, culture, home, homelessness, everyday life, history, direction, multiple ways to tell a story, movement, urban nomads, continuity, reflect, migration, adapt, hybrid spaces...

Lattice Sketchbook

Project or Direction Ideas

Casula Powerhouse

- Platform for creativity
- Lower barrier for creativity

* Using
* Light pens
* Digital white board

Broadcast
to other
rooms/Internet/
other mediums etc

Re-broadcast??

- Building it
- Cost of equipment on technical things
- Only me - no one else working on technical things
- Technical skills?

Could lead to massive
webs of information that
feed into each other

↳ driven by the people that
use it

↳ & connecting people.

* Craft! Architecture

* Johnny Lee will make
projects

Resources
it builds connecting (with
people & their spaces)

Places or Spaces

- Could powerhouse
- Any wall that can be
projected on

↳ clean - no mess!
can set up anywhere

Need tech people to
set up equipment → write
software?
